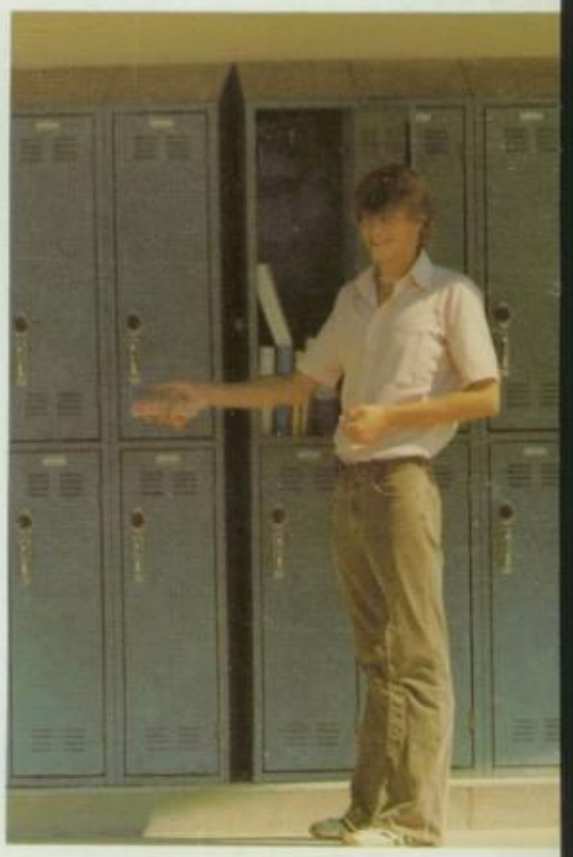
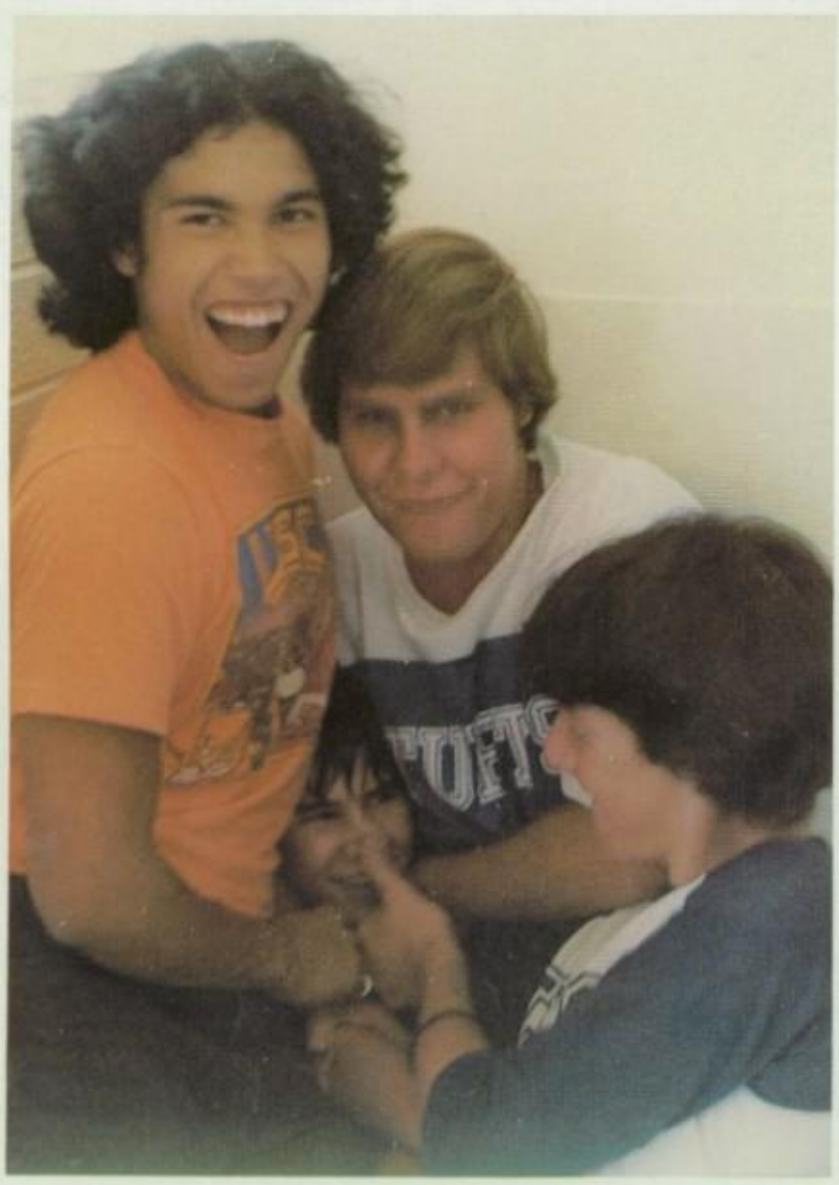
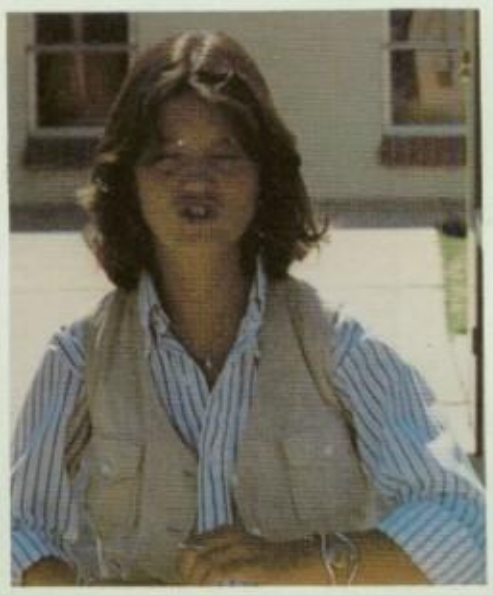
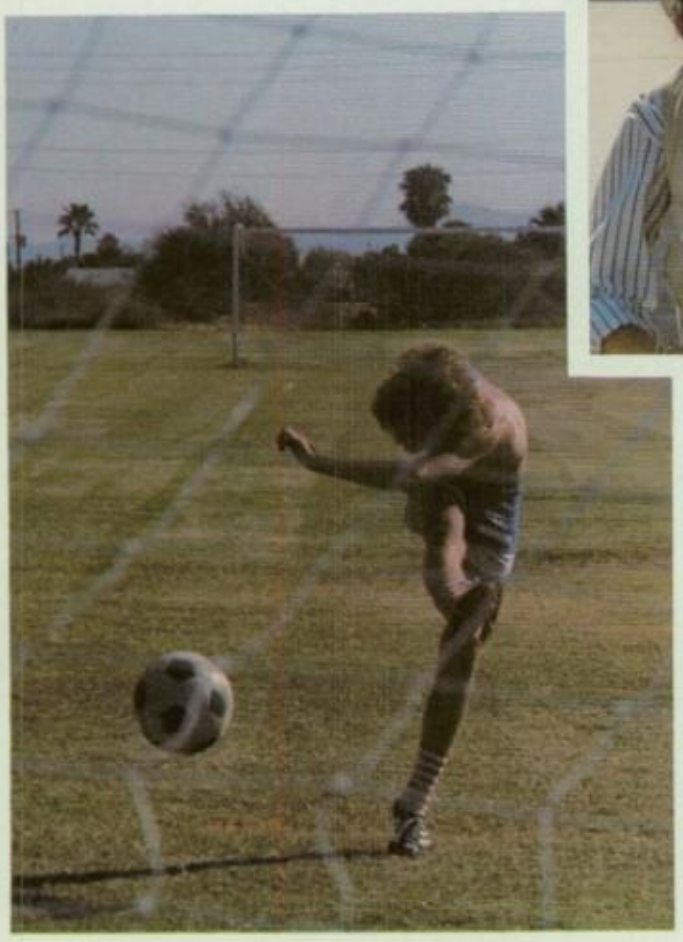
"It was the best of times,



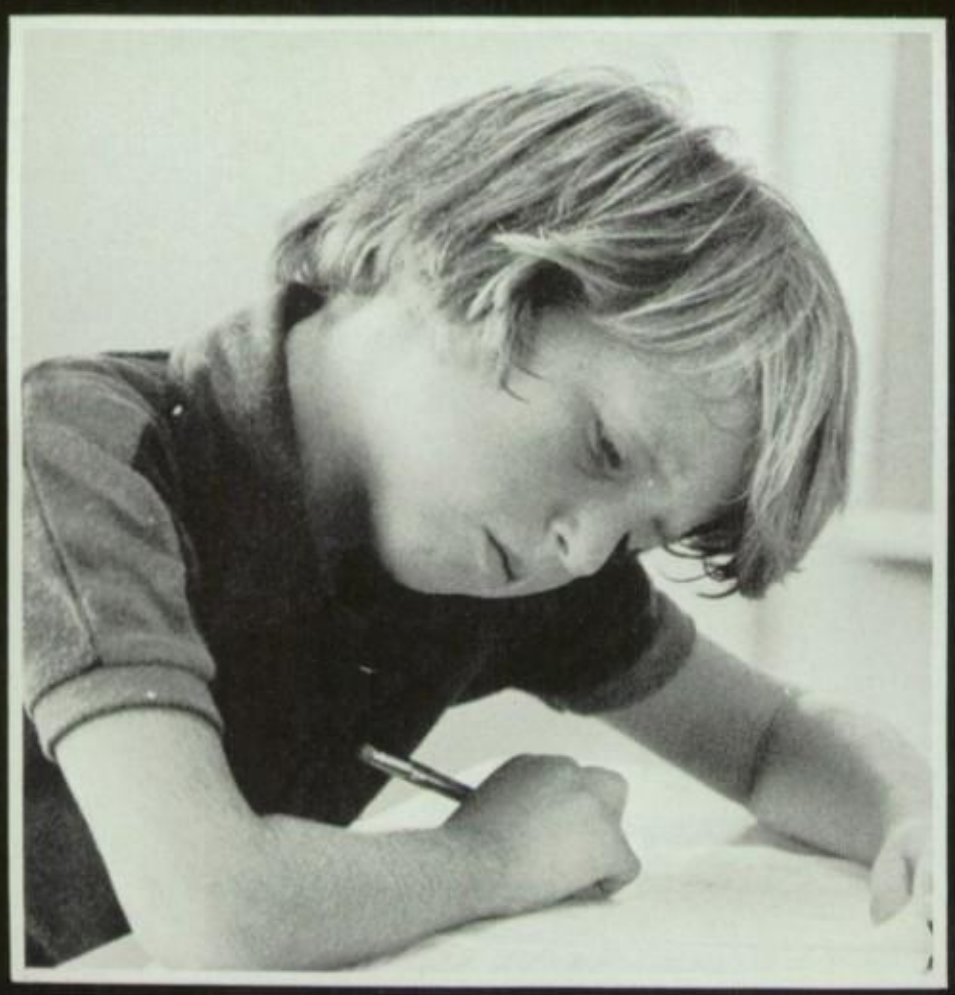


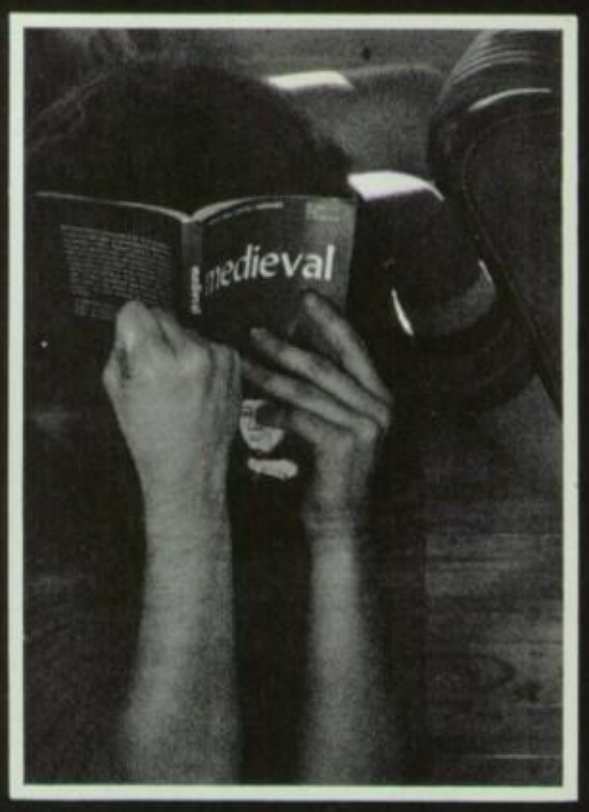


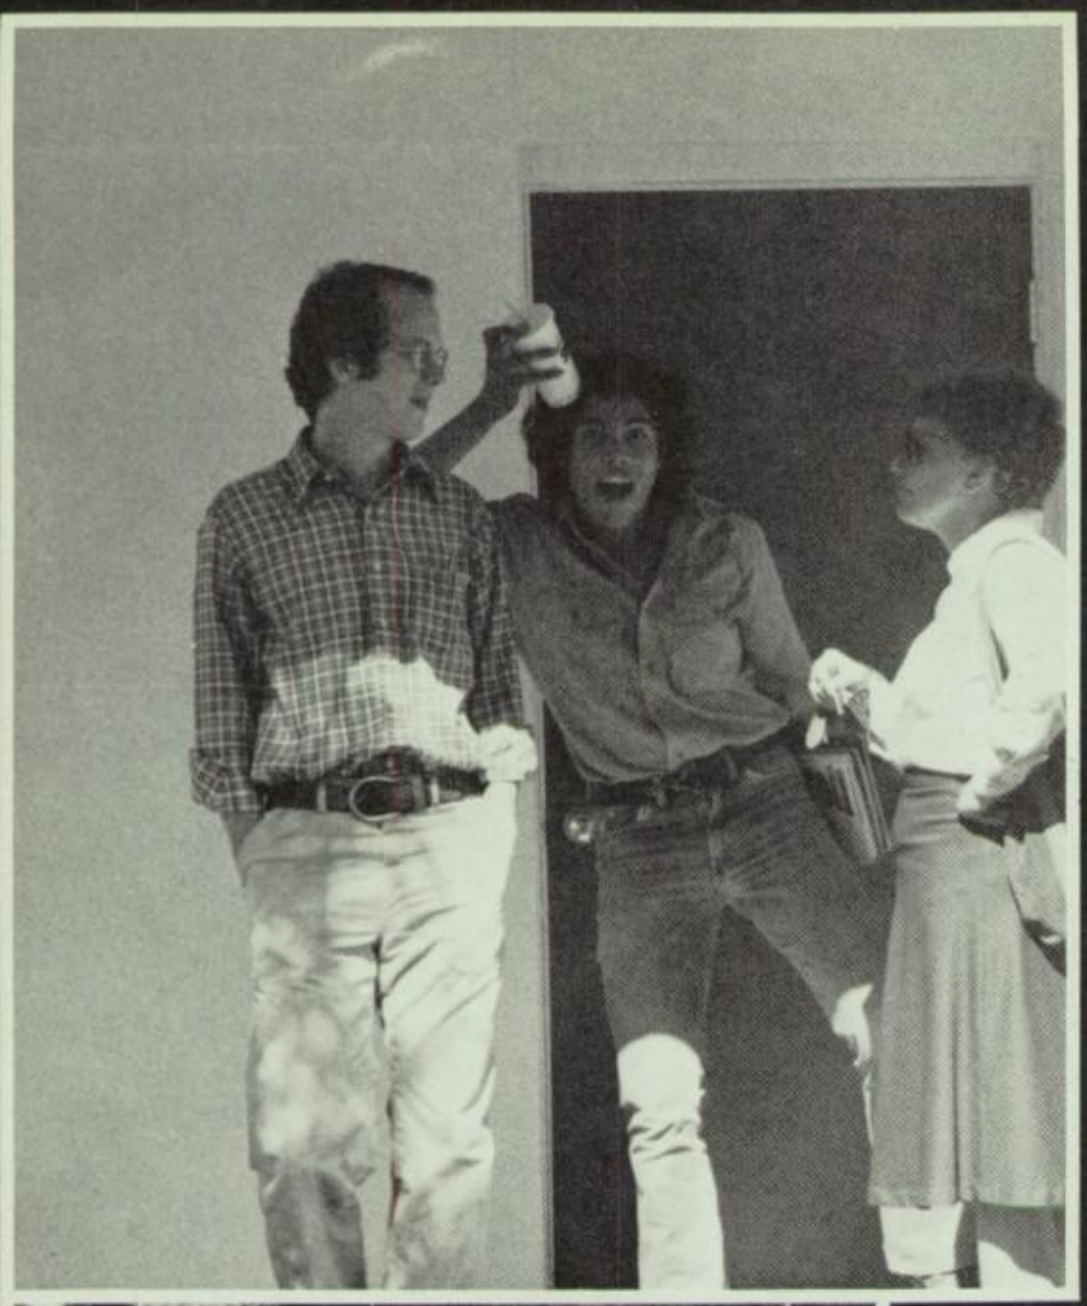


it was the worst of times,

it was the age of wisdom,



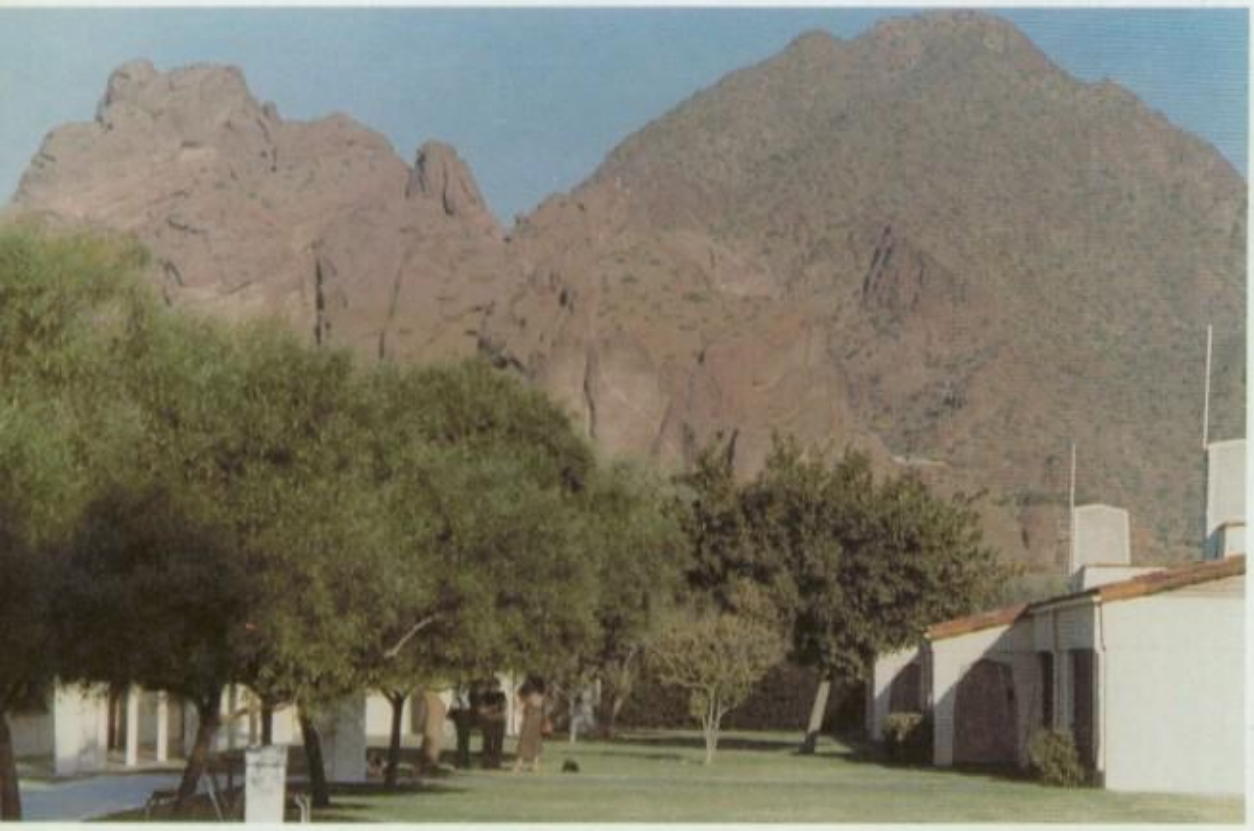


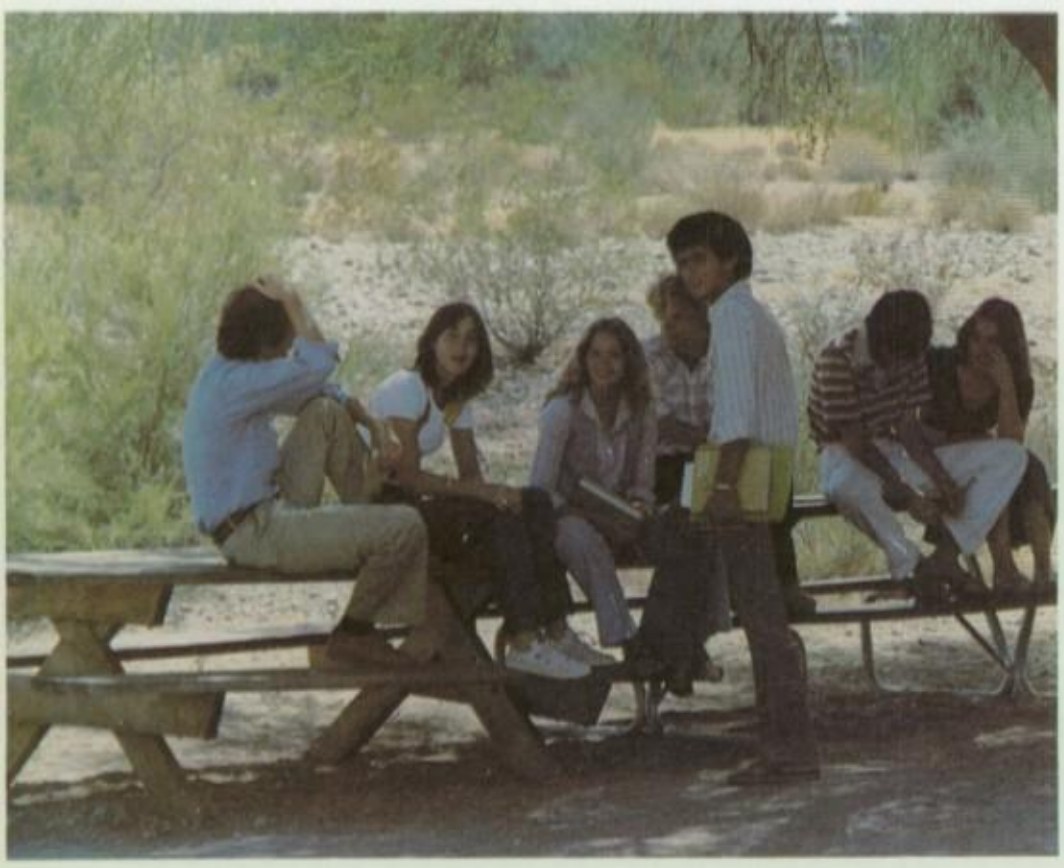


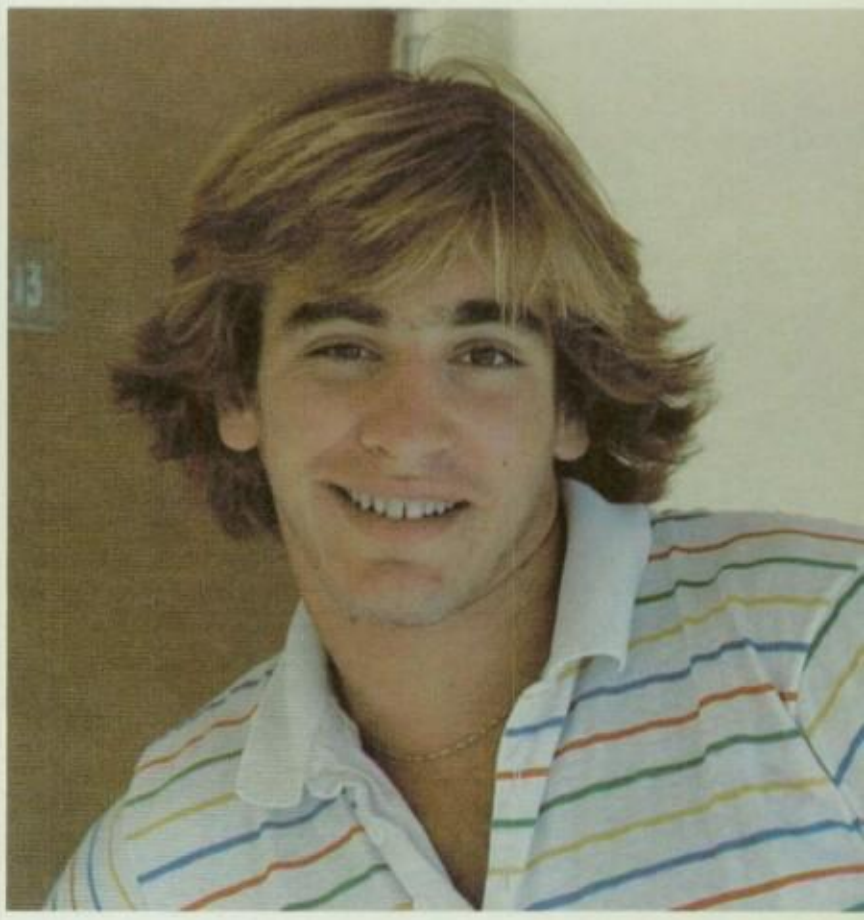
it was the age of foolishness,

it was the epoch of belief,

it was the epoch of incredulity,

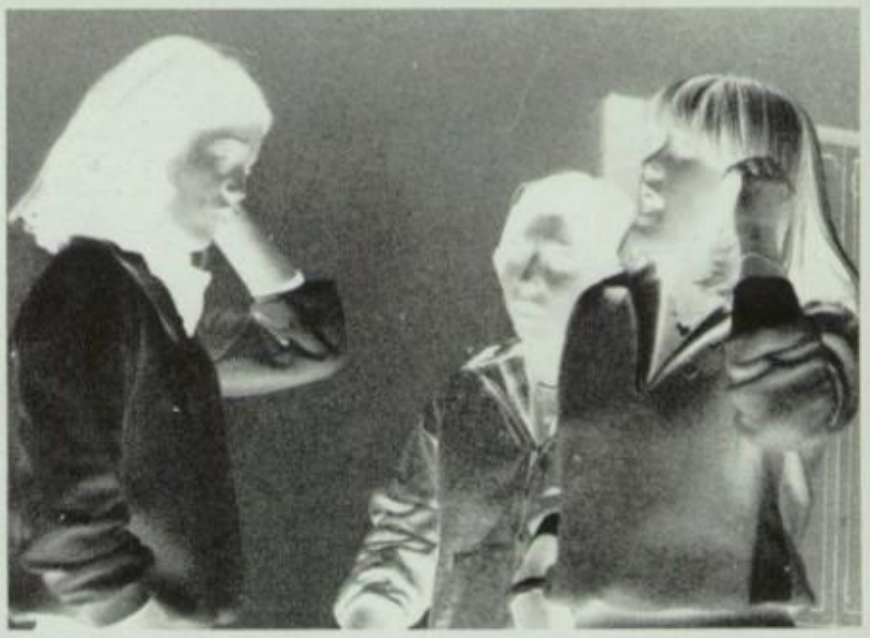


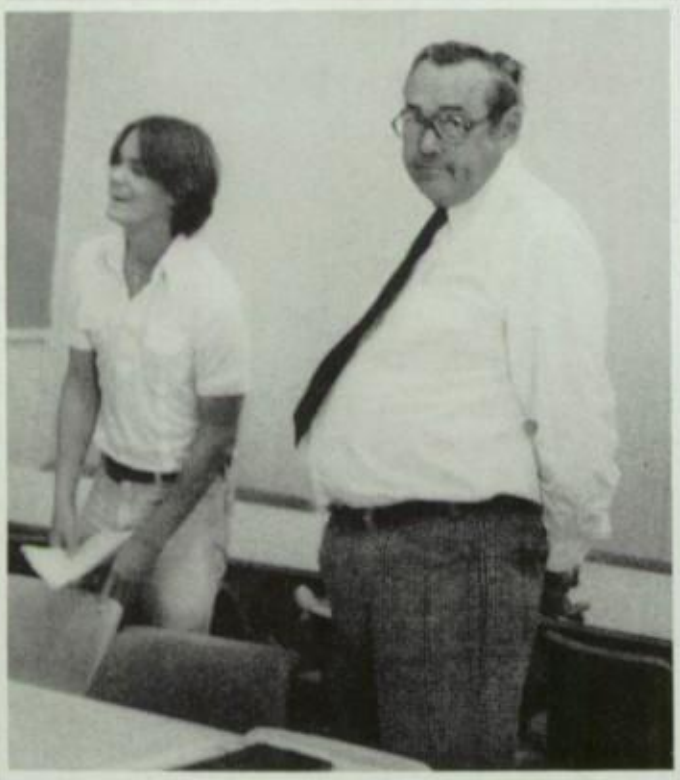


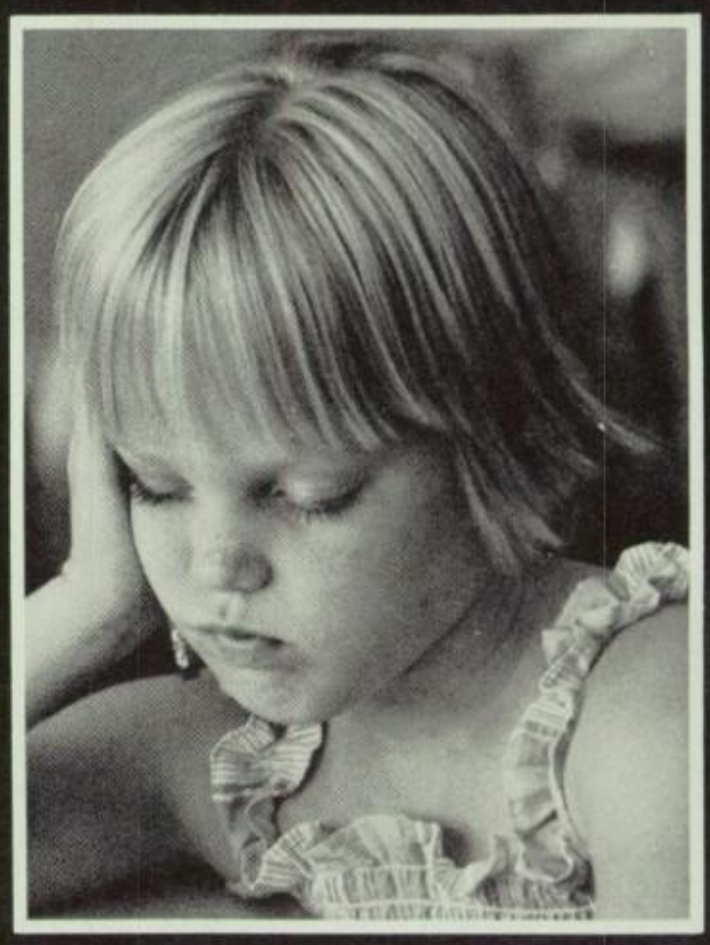


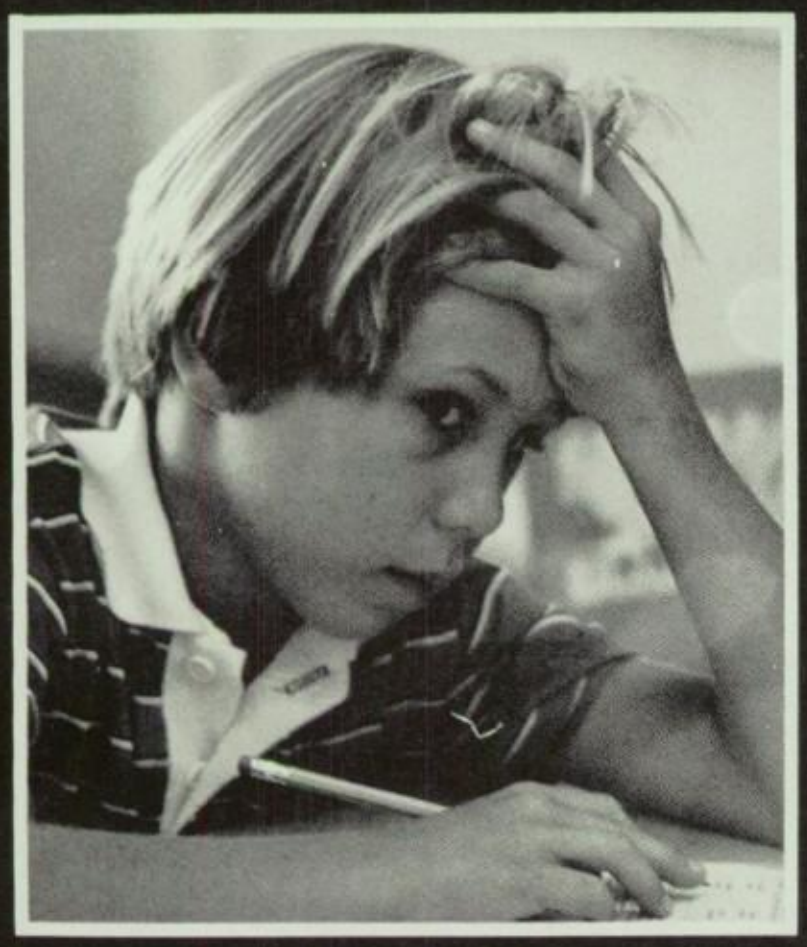
it was the season of Light,

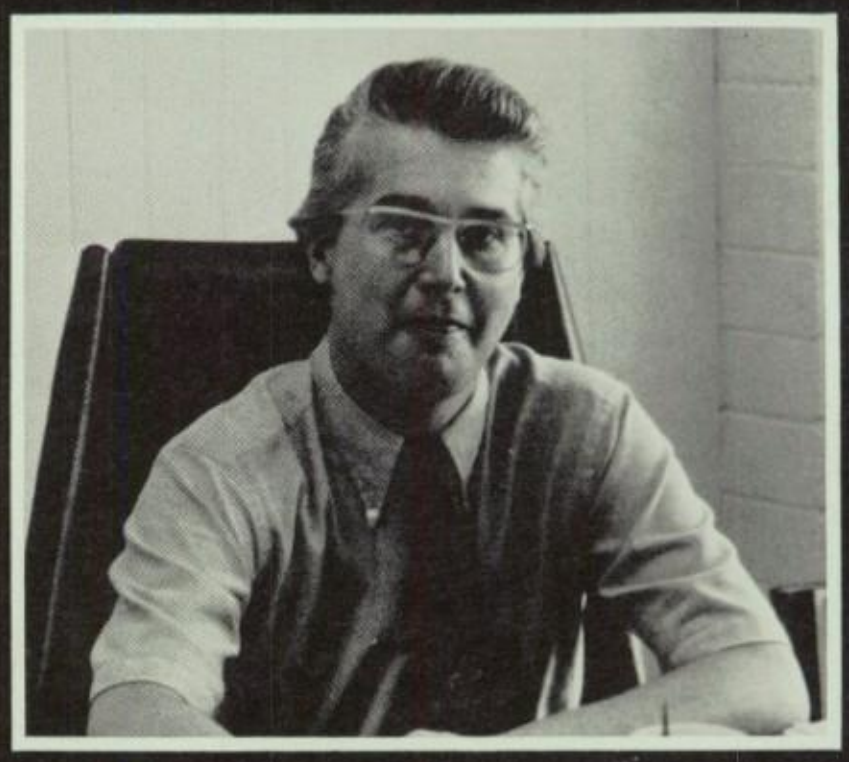
It was the season of Darkness,
it was the spring of hope,





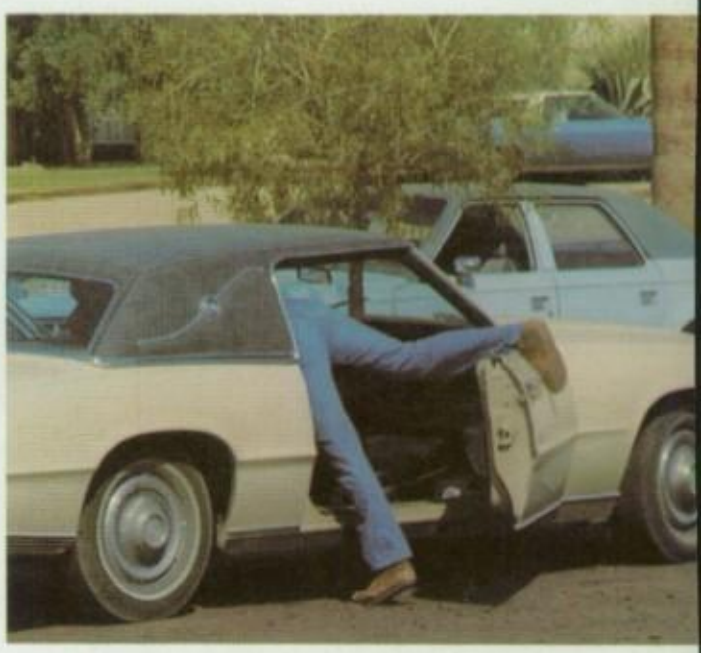


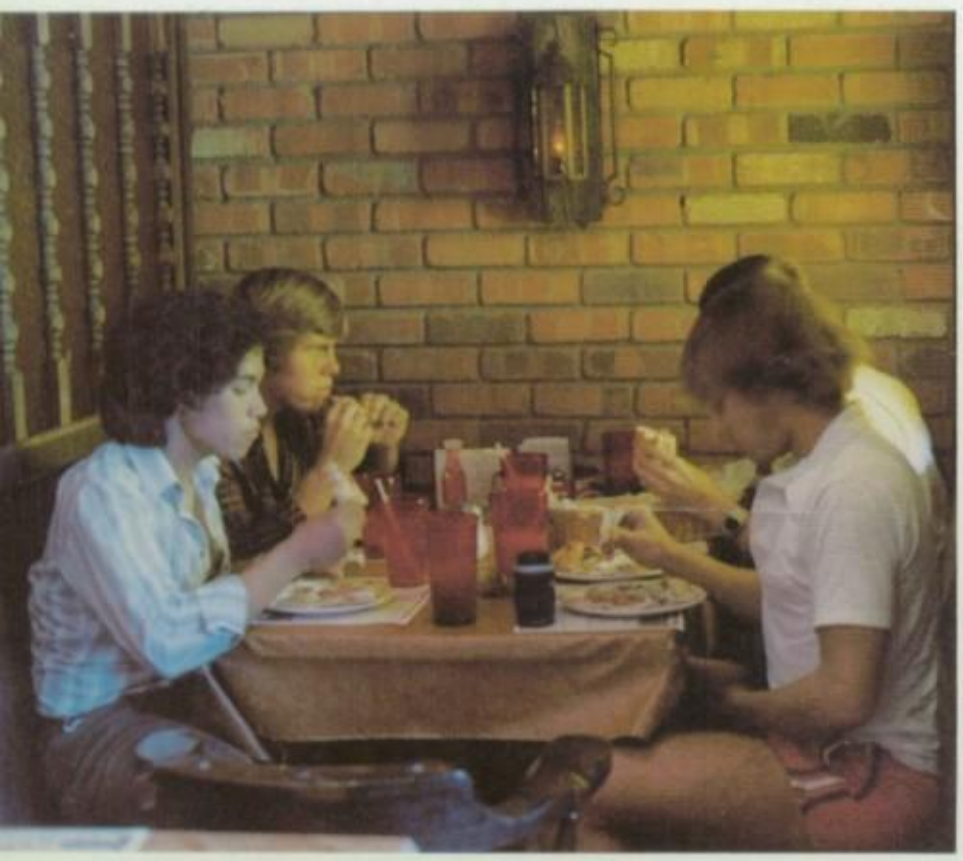


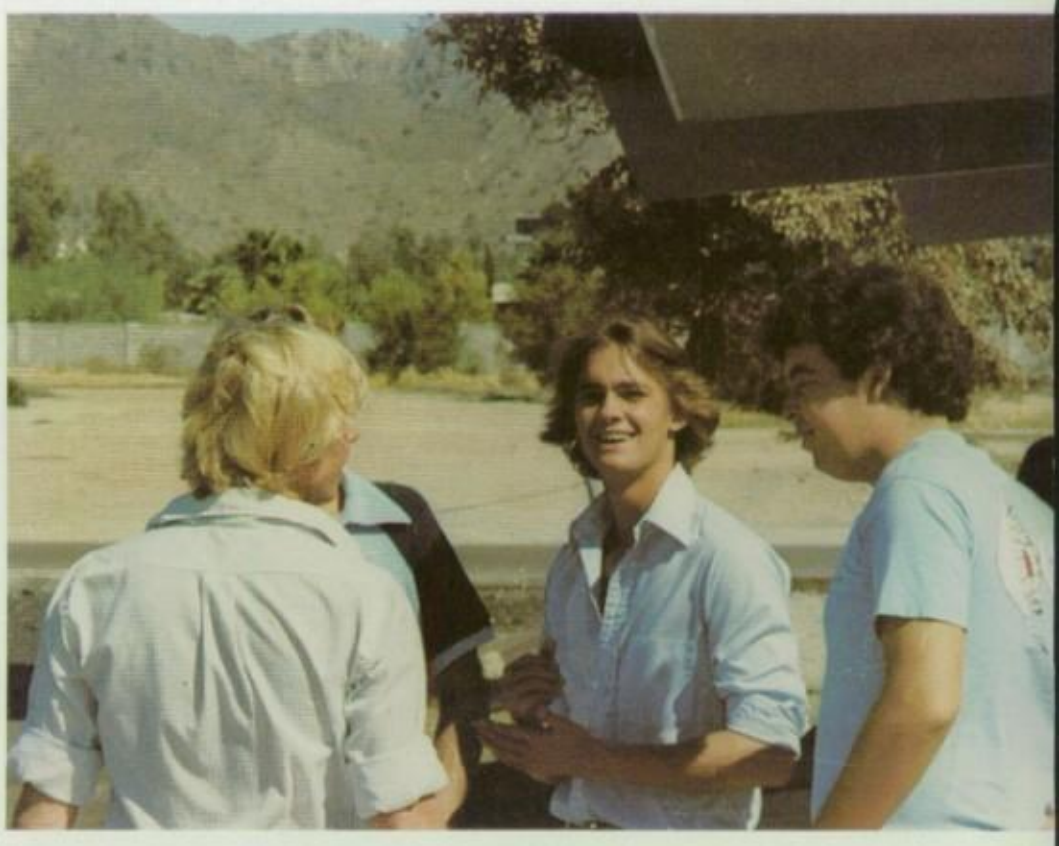


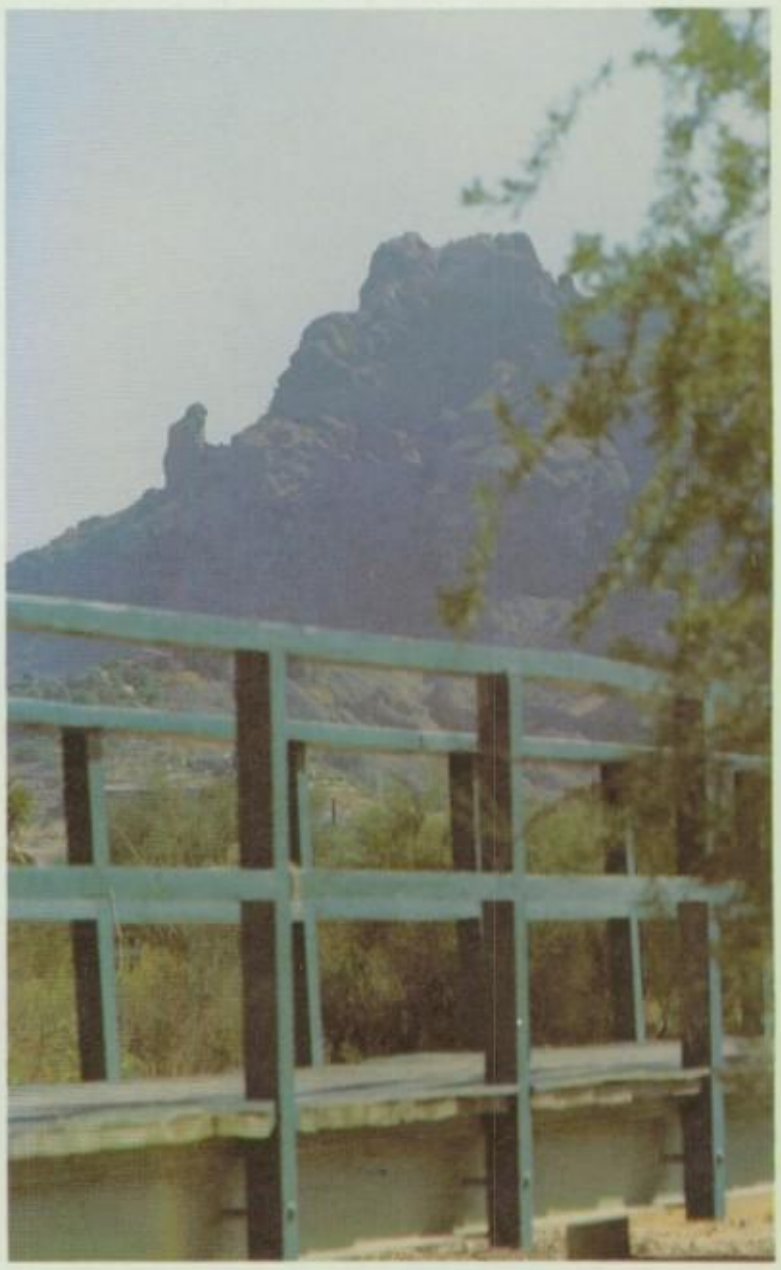
it was the winter of despair,

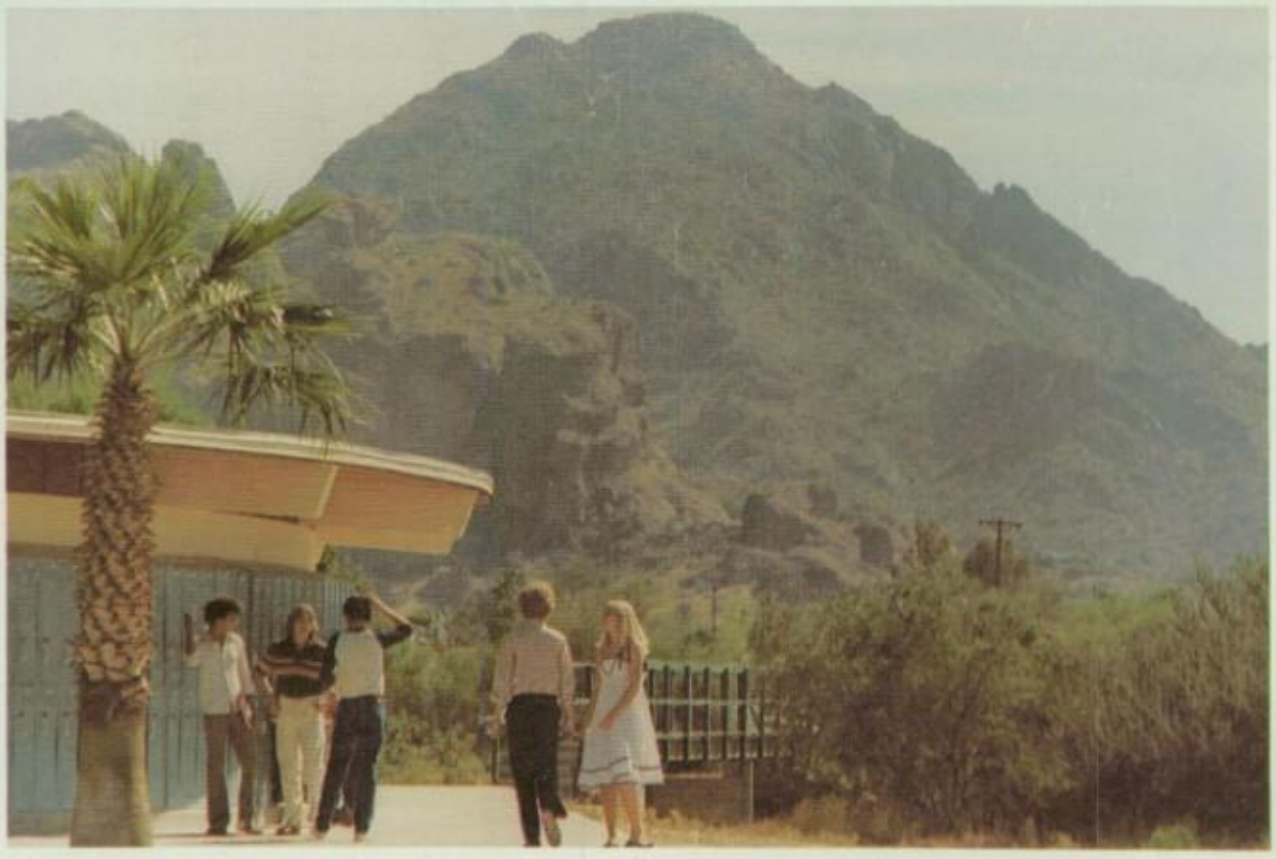
we had everything before us,





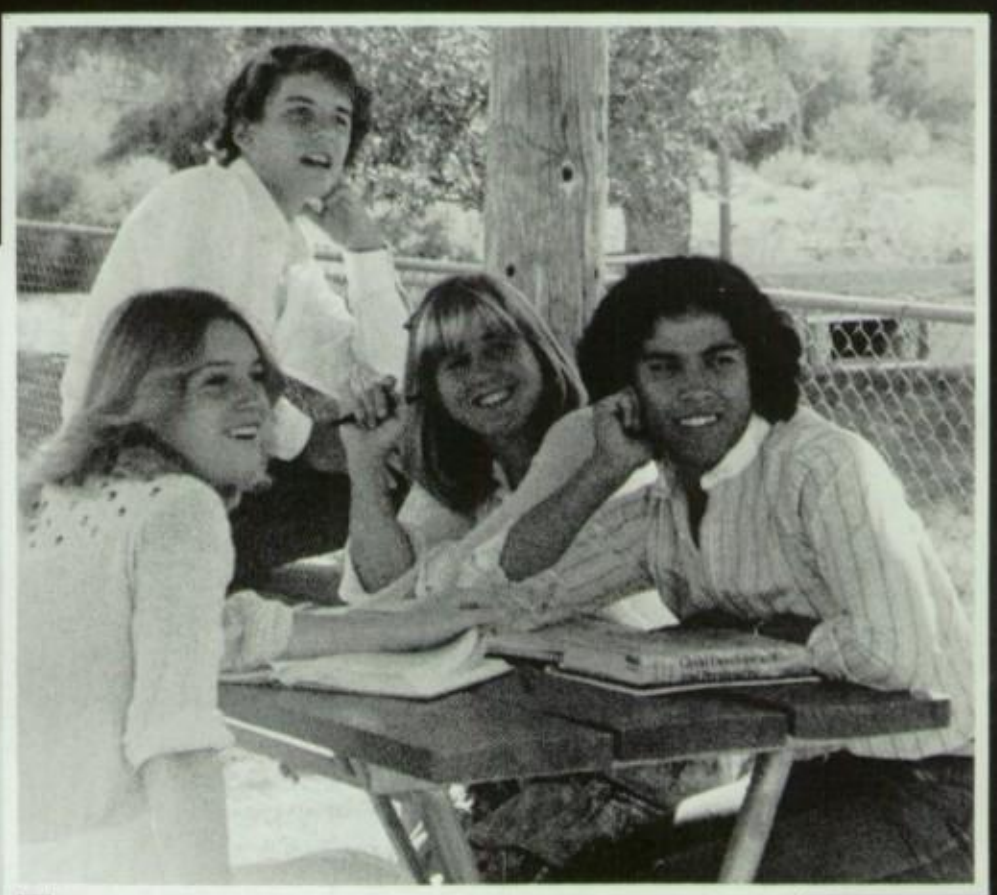


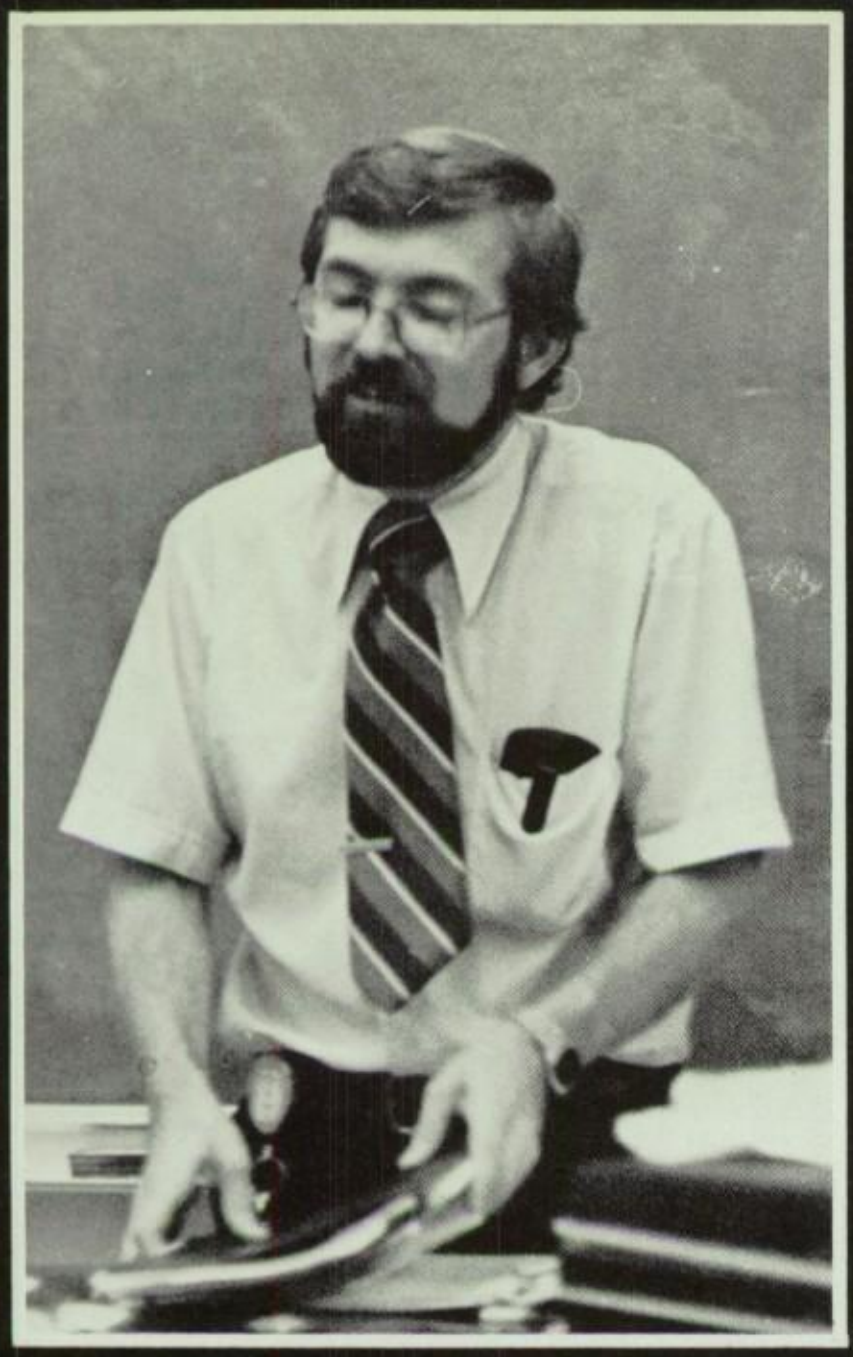




we had nothing before us,

we were all going direct to Heaven,

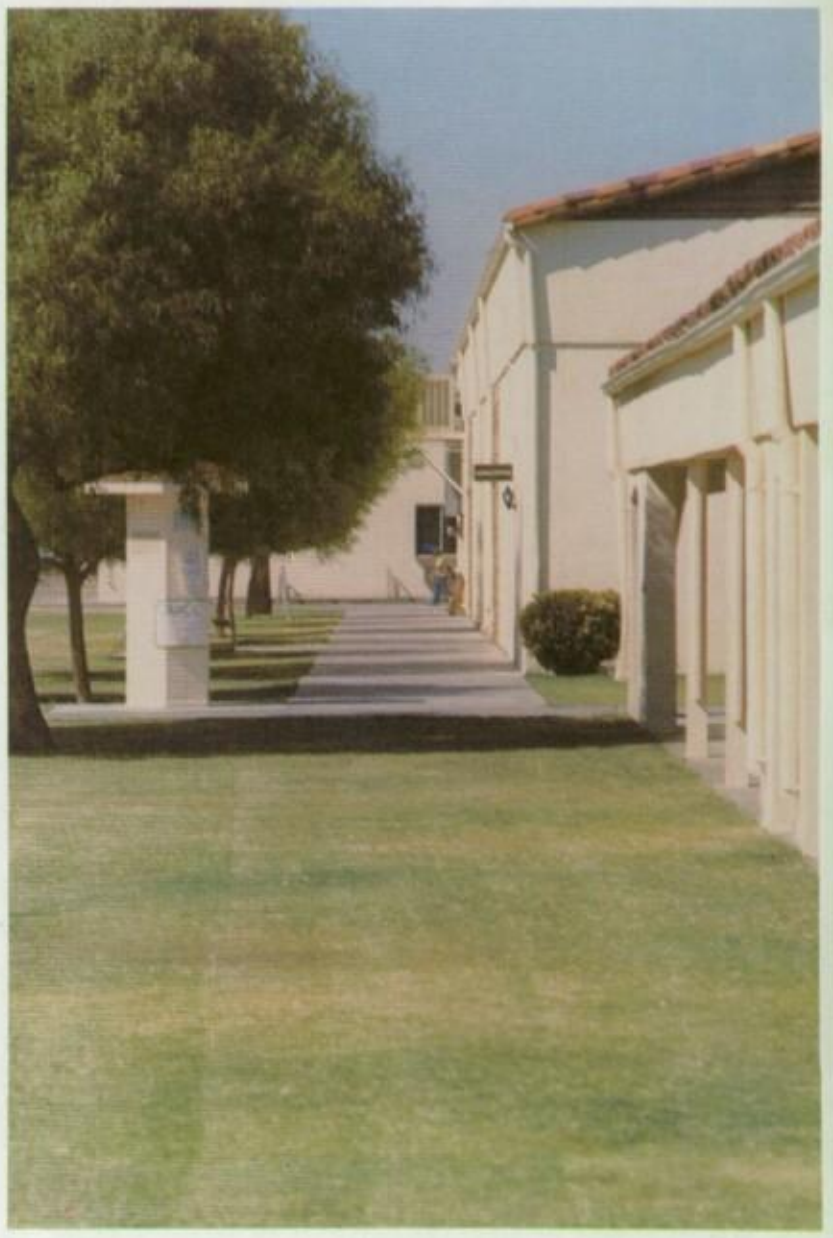


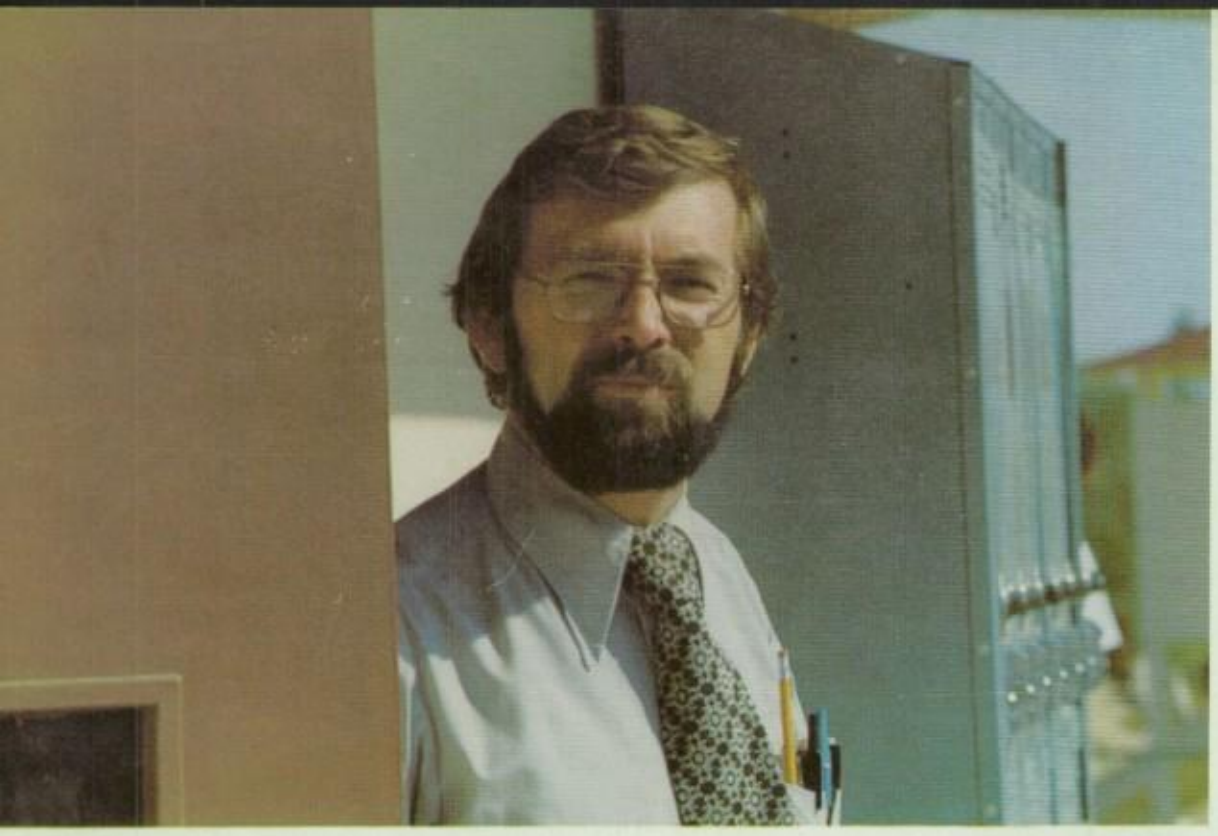


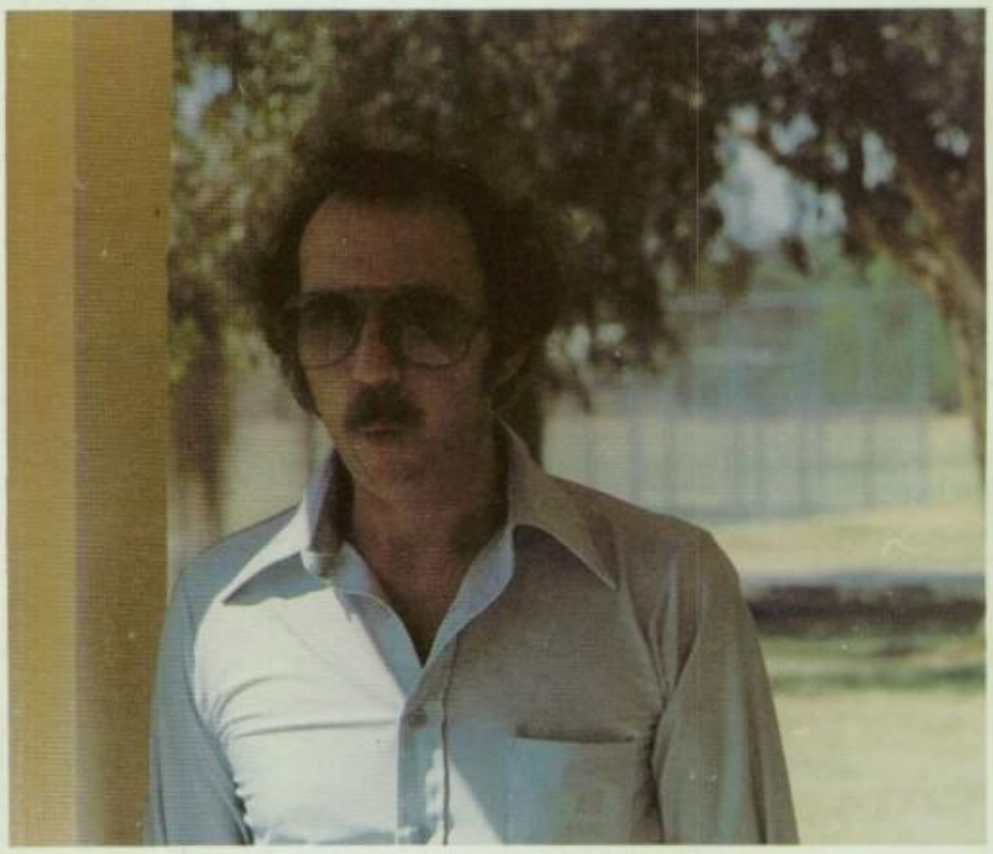
we were all going direct the other way-

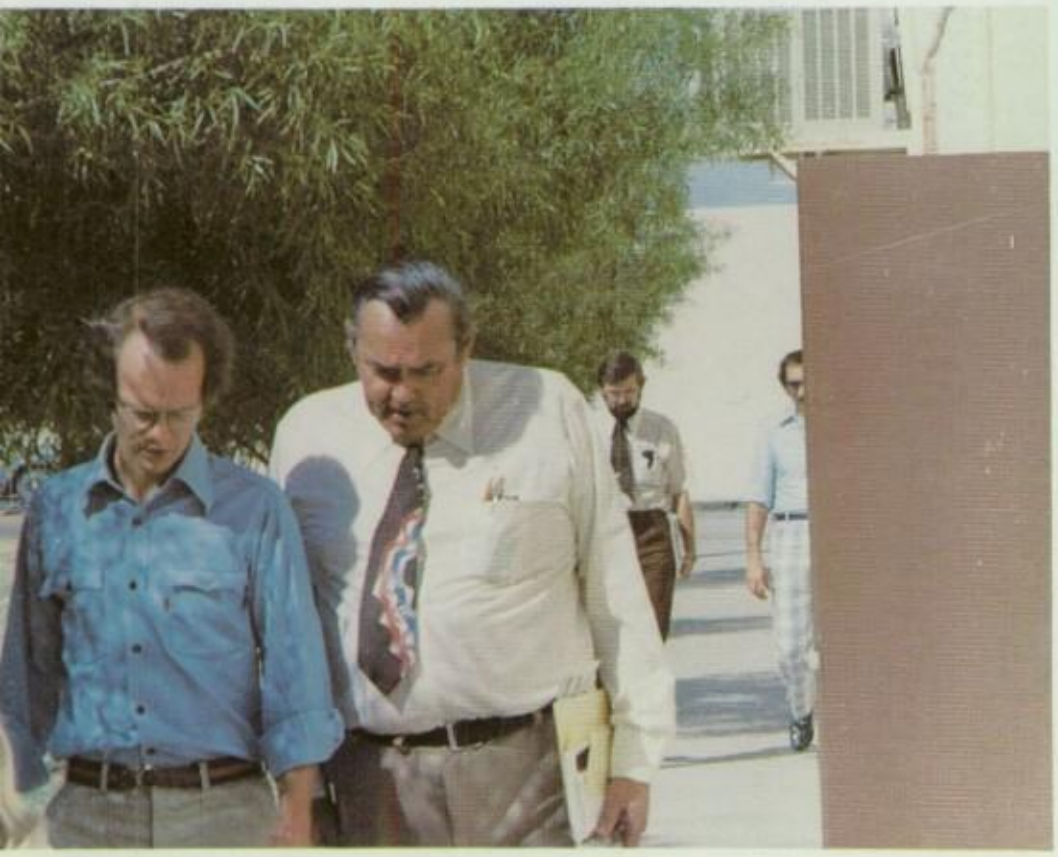
in short, the period was so far

like the present period,





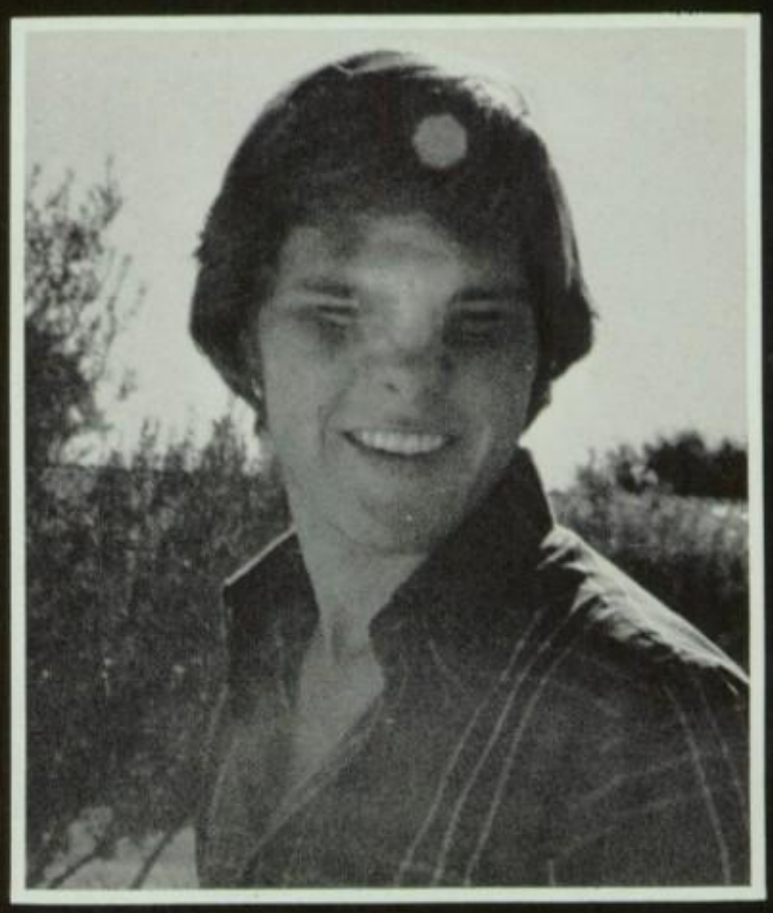


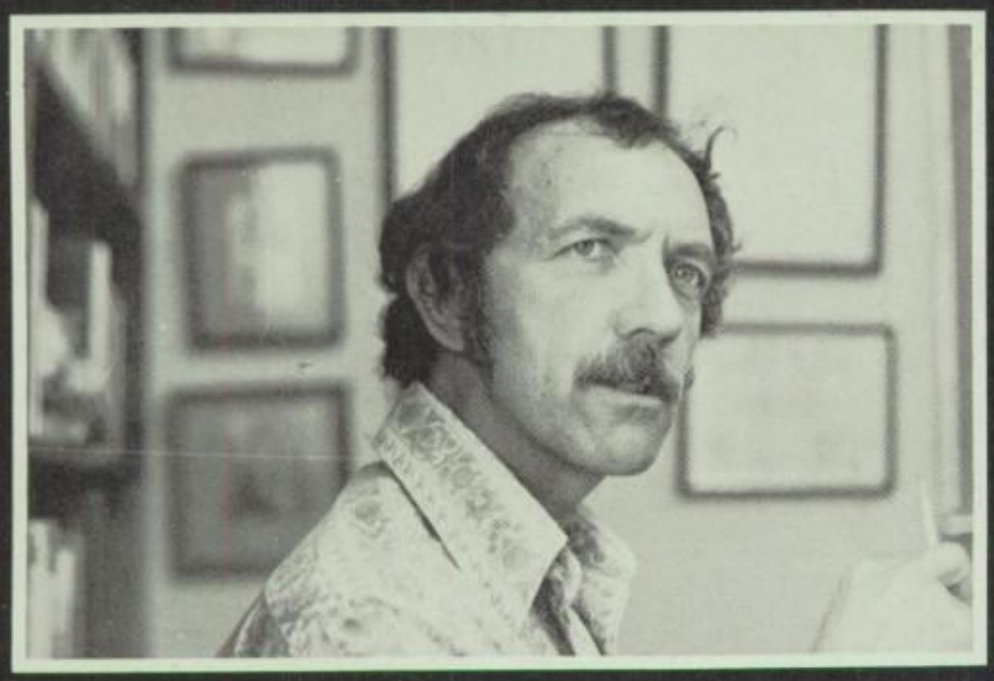


that some of its noisiest authorities

insisted on its being received

for good or for evil.





in the superlative degree of comparison only."

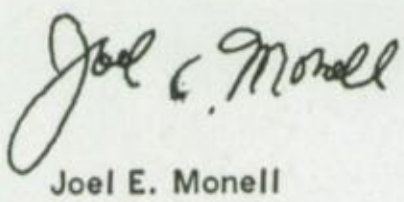
JOSTEN'S AMERICAN YEARBOOK COMPANY

To the Class of 1979

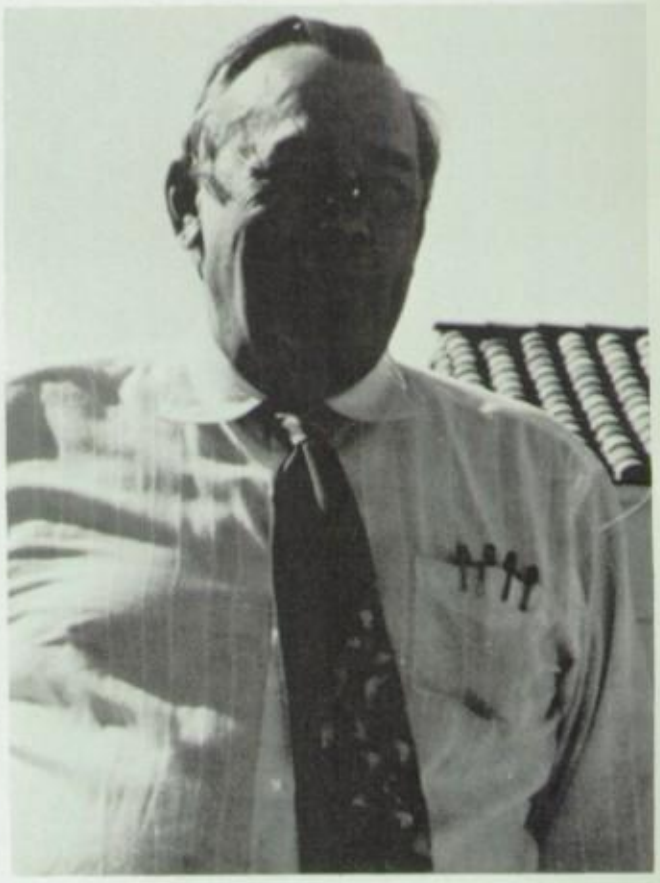
You are about to depart on another phase of your life. For most of you, this will mean four years of college followed by graduate school and perhaps some kind of internship. Each phase will be preparatory for the next. Finally, you will reach your goal only to find that there are new horizons, new options to be explored. As you travel through these phases, don't forget to "stop and smell the roses," as the popular saying goes. Hopefully, this yearbook will be a reminder of particularly fragrant roses encountered during a very important period of your lives.

Good luck and come back to visit us when you have the opportunity.

Sincerely,



Joel E. Monell
Headmaster



The Senior Class Dedicates

This Yearbook To

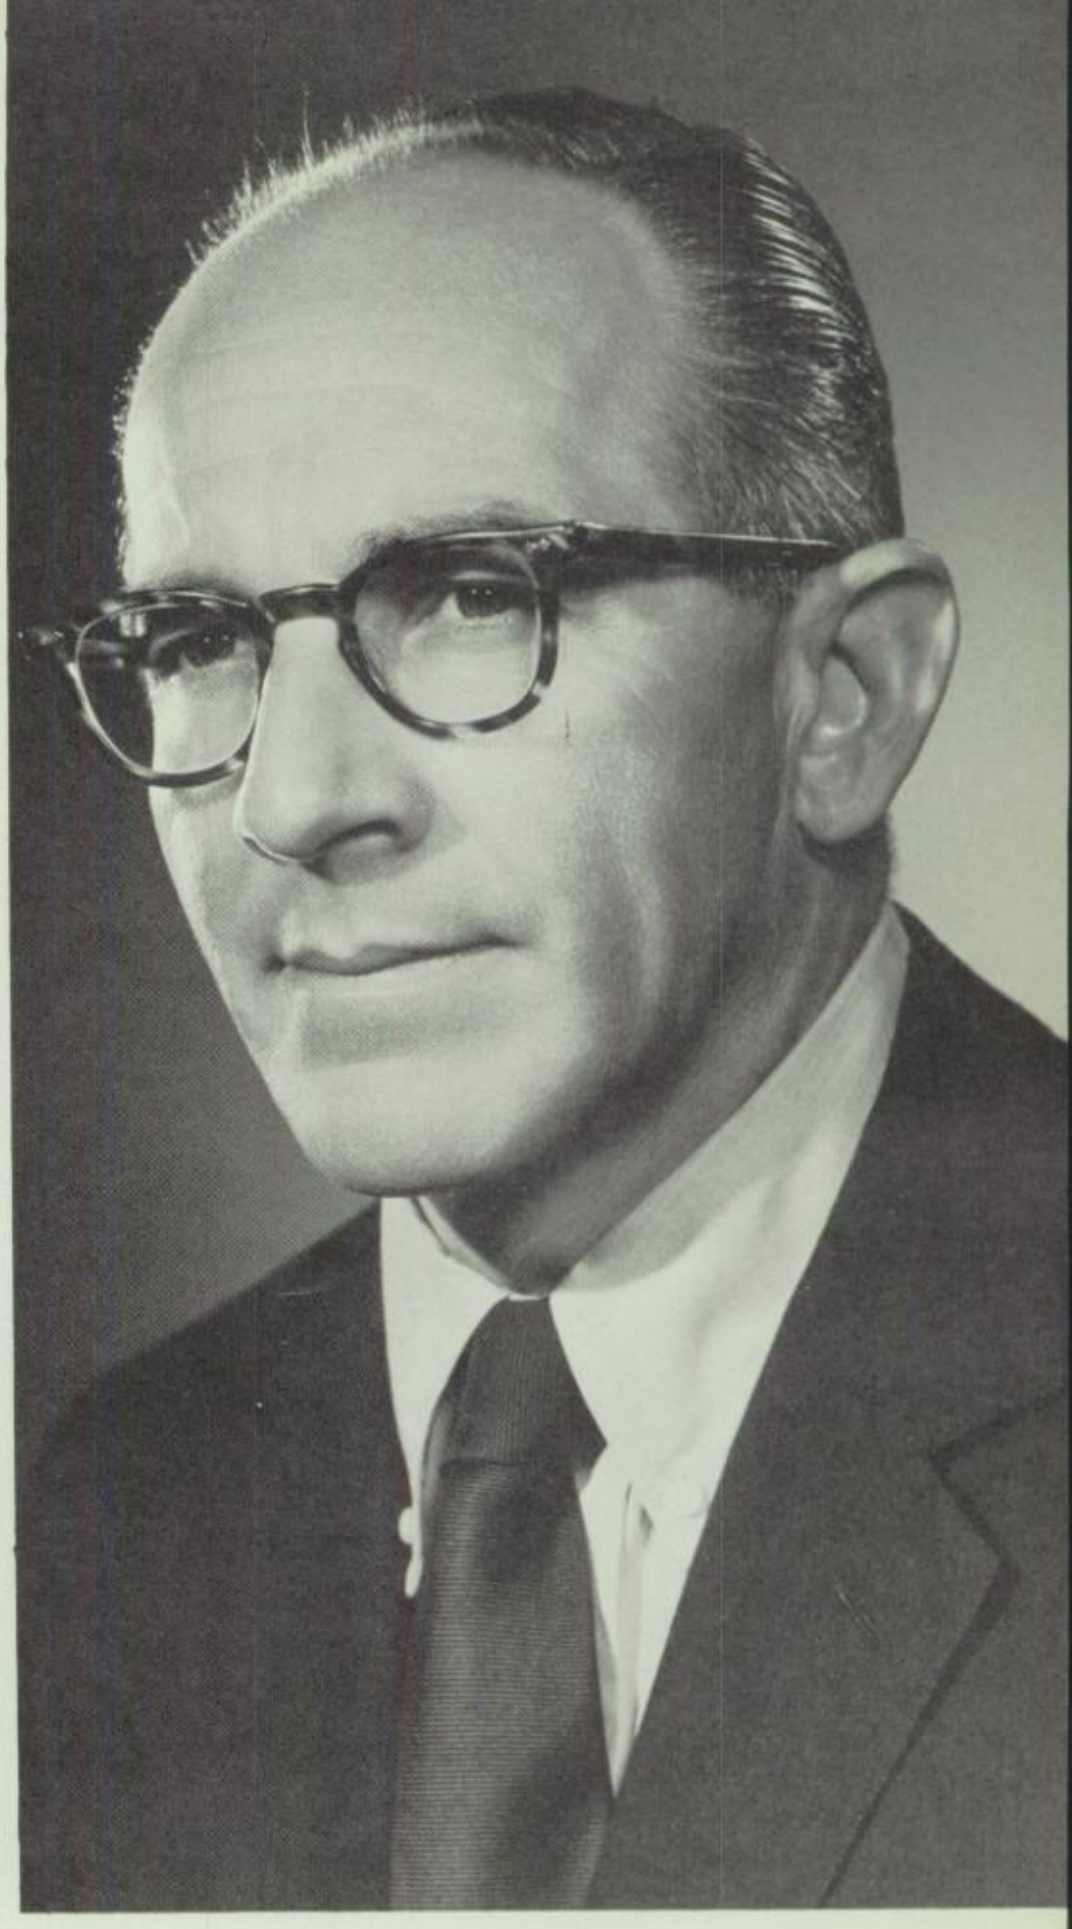
Mr. David Oliver Raymond

"But if you knew your motivation,
If you knew the force or cause,
You could turn your physical expression
In the direction you might choose.
Then might your cause be direct,
And you might go forever onward,
Alone, yet unafraid."

-From The Sixth Hour

Thank You Mr. Raymond

Another long-time friend and advocate of Phoenix Country Day School is Mrs. Bettye Mobley. Mrs. Mobley has worked in the business office of P.C.D.S. since its beginning. The school has been fortunate to have a woman of this dedication and devotion. The Senior Class wishes her well on her pending retirement and thanks her for her many years of unselfish service.



With the passing of Mr. Talley this year, we are reminded that Phoenix Country Day School has grown through the efforts of many hard-working, dedicated people. Often time is not taken to express appreciation to such people. Both Mr. and Mrs. Talley were instrumental in establishing Phoenix Country Day School in 1961. Throughout past years they have reaffirmed their faith in the school. Phoenix Country Day School is fortunate in having many friends such as the Talleys.

SENIORS

Senioritis Strikes Again!!!

Senioritis? What is this remarkable disease that causes seniors to daydream during their classes forget to pick-on freshmen and neglect to look at you or anyone for that matter when they are speaking? A recent study released by ASSES (Association of Secret Sources for Exceptionable Studies) shows us the following information on this strange affliction.

Senioritis is so named since it is strictly confined to the species of humans in their secondary education (in rare exception juniors have been known to contact the disease through Pina Colada Eegee's). The disease attacks in the form of a bright purple bug which attaches itself to the lower wall of the esophagus causing victims to have speech problems such as slurred speech or extremely rapid speech. This also detracts from the brain functions causing wandering minds and daydreams of walks in the park or volleyball games on a beach. Often the victim becomes so affected that he or she may wish to spend entire days just sitting in bed doing absolutely nothing. This sympton is often mistaken for a case of freshmanitis which is an entire different matter. Other symptoms include lack of studying and sleep often accompanied by fierce partying in the later stages of the disease.

Experts say there is no cure but a simple remedy is to just be patient with the victim for surely in time they will outgrow this phase and become a freshman all over again.

These are just some words to say that I'm proud of what you are and I hope my world can take me half that far. Thanks for making a child so full of love.

High on this mountain
The clouds down below
I'm feeling so strong and
alive
From this rocky perch, I
continue to search
for the wind and the snow
and the sky.
I want a lover and
I want some friends and
I want to live in the sun
And I want to do all
the things that I never
have done.

The deeper we look into nature, the more we recognize that it is full of life, and the more profoundly we know that all life is a secret and that we are united with all life that is in nature.
Man can no longer live his life for himself alone.
We realize that all life is valuable and that we are united to all this life.
From this knowledge comes our spiritual relationship to the universe.

It's six o'clock
Good morning sounds
are everywhere
The warmth of spring, a gentle
breeze blows through my hair

I hurry through my life never
stopping to see
How beautiful it was meant to be

I'm just a prisoner in a
king's disguise
Broken dreams as we shuffle by

It's six o'clock it's quitting time
I'm done for the day
Out on the streets I overheard a
lady say
We now have everything or so
people say
But now this emptiness haunts
me every day
We seek the lion's share never
knowing why
Come alive spread your wings
and fly

Pieces of eight
The search for the money tree
Don't cash your freedoms in
for gold

Pieces of eight
Can't buy you everything
Don't let it turn your heart
to stone

Pieces of eight
The search for the money tree
Don't cash your freedoms in
for gold

Pieces of eight
Treasures filled with emptiness
Don't let it turn your heart
to stone

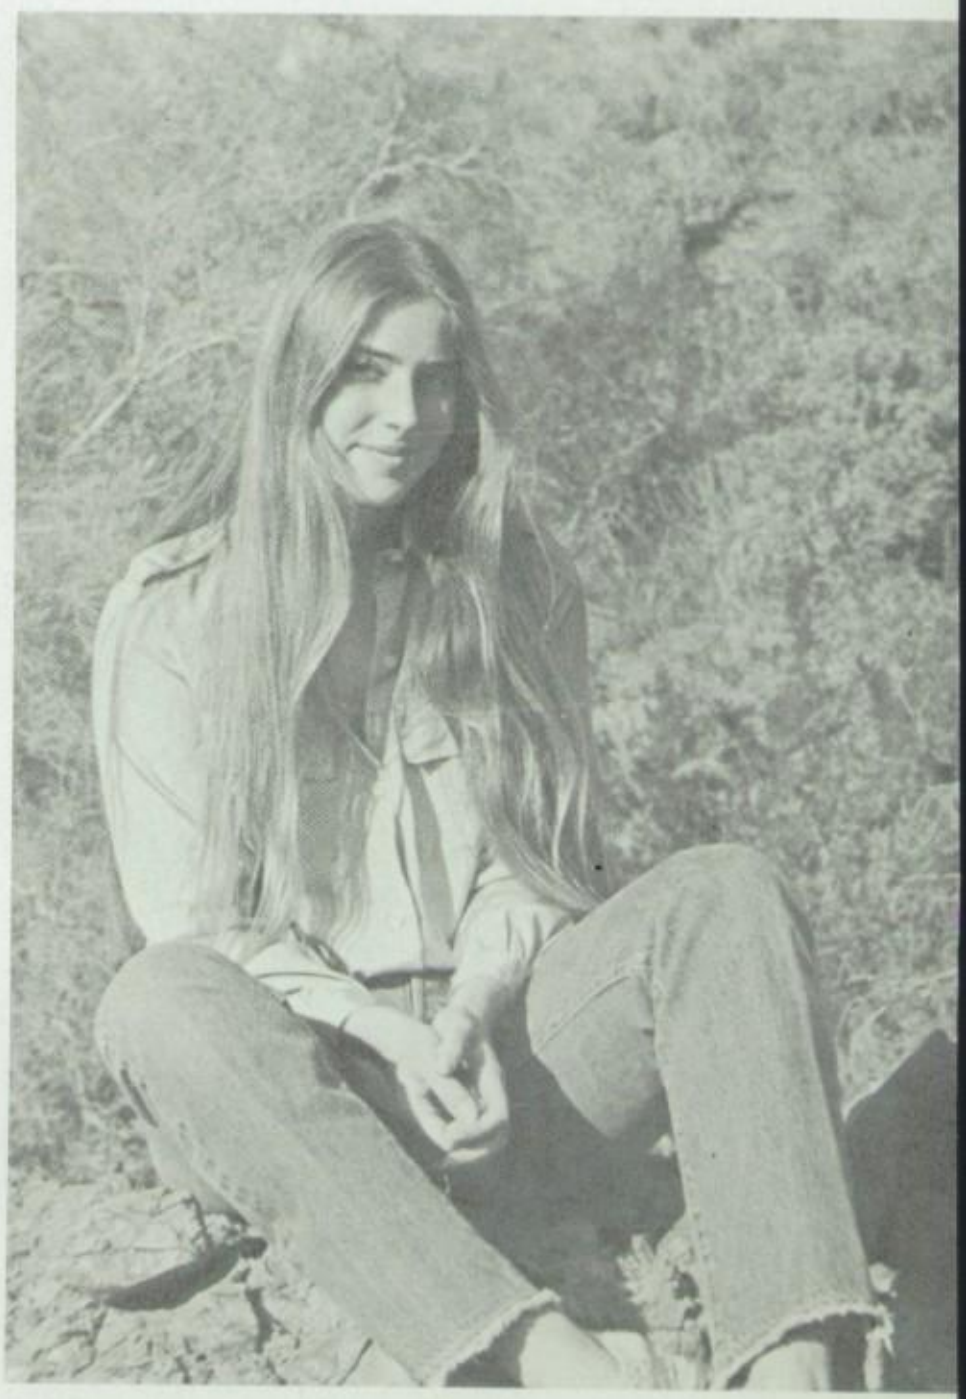
I follow alone
endless paths of sorrow
enclose the stifling
caverns towering about
my being
Stones tossed carelessly
in nonrandom patterns
leaving creases of
age marked eternally in time
Advantagous situations
occur throughout my life
I reach to the sky
my fingertips feel
the enchantment of ecstasy
engulfing my soul
a tear
My anchors weigh me down
"Release me you fool!
do you not see where I am?"
But in vain I weep
Tears to dissolve the chains
around my feet
Never melt and never steam
Contain emotions
remain unseen
I will fight until I die
Maybe I won't reach the sky
But I'll sure as hell try
To keep myself high



You spend your life
abusing your body
and you tell her the
apple juice is good for her

-Antoine de Saint Exupery

Kira had never been in love. The only hero she had known was a Viking whose story she had read as a child; a Viking whose eyes never looked farther than the point of his sword, but there was no boundry for the point of his sword; a Viking who walked through life, breaking barriers and reaping victories, who walked through ruins while the sun made a crown over his head, but he walked, light and straight, without noticing his weight; a Viking who laughed at kings, who laughed at priests, who looked at heaven only when he bent for a drink over a mountain brook and there over-shadowing the sky, he saw his own picture; a Viking who lived but for the joy and the wonder and the glory of the god that was himself. Kira did not remember the books she read before that legend; she did not want to remember the ones she read after it. But through the years that followed, she remembered the end of the legend: when the Viking stood on a tower over a city he had conquered. The Viking smiled as men smile when they look up at heaven; but he was looking down. His right arm was one straight line with his lowered sword; his left arm, straight as the sword, raised a goblet of wine to the sky. The first rays of a coming sun, still unseen to the earth, struck the crystal goblet. It sparkled like a white tourch. Its rays lighted the faces of those below. "To a life," said the Viking, "which is a reason unto itself."

Thanks!

With my limited vision
I don't understand
Why anybody has to lose a friend
Everybody has to follow their heart
But it can hurt so bad
To see changes

I believed in something
I thought you did too
But I didn't know what you were going
through
How can people be so close, yet apart
There's no wrong or right
It's just changes

Once I experienced the other end
I lost a friend or two
Doing what was true for me
Even though I know that time will make
it right
I miss the way things used to be

I'm only human
And I may never know
All the reasons why people come and go
I guess if we can love it all transcends
There's enough to give
We've got our lives to live
Through changes

Day is ended, dim my eyes,
but journey long before me lies.
Farewell, friends! I hear the call.
The ship's beside the stoney wall.
Foam is white and waves are gray;
beyond the sunset leads the way.
Foam is alt, the wind is free;
I hear the rising of the Sea.

Farewell, friends! The sails are set,
the wind is east, the mornings fret.
Shadows long before me lie,
beneath the ever-bending sky,
but islands lie behind the Sun
that I shall raise ere all is done;
lands there are west of West
where night is quiet and sleep is rest.

Guided by the Lonely Star,
beyond the utmost harbour-bar
I'll find the havens fair and free,
and beaches of the Starlit Sea.
Ship, my ship! I seek the West,
and fields and mountains ever blest.
Farewell to Middle-earth at last.
I see the Star above my mast!

The Advisory Board made great steps forward this year in rooting out student apathy. Activities this year included the first annual Advisory Board Softball tournament along with various other events calling for student participation. The Social and Restoration Committees got into full swing for the first time in P.C.D.S. history, the Judicial Committee played a valuable role in student government, and the Advisory Board as a whole neared its full potential. I look to next years Advisory Board to come through with new ideas so that student involvement will not become just a passing phase.

new horizons

Phoenix Country Day:
Wilderness; Overseas:
Shadow Program

New Horizons offers Upper School students a unique learning experience during the spring semester. The program focused on four areas - the Shadow Program, wilderness outings, overseas travel, and a variety of on-campus courses.

The Shadow Program provided students with opportunities to explore potential career interests or participate in community service. The wilderness outings involved backpacking trips to Catalina Island and Canyonlands, Utah and a tour of southwestern natural science exhibits. The Language Department sponsored a tour of Spain and France. On-campus courses ranged from Raku to research.

This year Paul Schweikher directed New Horizons and headed the Shadow Program; Robert Wilson, the wilderness courses; James Bruning, the overseas tour to Spain and France; and James Roof, the on-campus classes.

Model U.N.

Once again PCDS was an active participant in the Arizona Model United Nations Program. Twenty Five Students, Juniors and Seniors represented Delegates from the nations of Uganda and Syria. These Third World Countries laid an active base from which our students excelled. The intensity of our involvement was exemplified when members of the Political Committee drew up a resolution to expell Philippe Bonnefoy and Matt Gregory, the Ugandan Delegation, from the meeting.Philippe Bonnefoy and Mark Three Stars were voted Bloc Leaders. Jeff Weiss represented Syria on the Security Council. Todd Gilmore and Robert Dodell were Judges on the International Court of Justice. Although once again we, by mistake, were not voted outstanding delegation, the effort was outstanding. Many of those involved gained experience that they could never receive in a classroom. Without the assistance of Mr. Paul Schweikher and Mr. David Raymond they might not have had this opportunity.

1978-79 saw the P.C.D.S. scattergunners participate in two high school tournaments, the Winter Chain shoots, the Arizona State shoot and the Spring Grand American Tournament. The P.C.D.S. shooters averaged two practise sessions per month from September through March and shot at more than 12,000 clay targets. In five years of organized shooting, the P.C.D.S. teams have won over 40 trophies in trap shooting competition.

"If we Shadows have offended,
Think but this-and all is mended-
That you have but slumber'd here
While these visions did appear.
And this weak and idle theme,
No more yielding but a dream,
Gentles, do not reprehend;
If you pardon, we will mend.

And, as I'm an honest Puck,
If we have unearned luck
Now to 'scape the serpent's tongue,
We will make amends ere long;
Else the Puck a liar call:
So, good night unto you all.
Give me your hands, if we be friends,
And Robin shall restore amends."

My question still is, has the good witch perhaps substituted a "stick boy" for Todd?

To make no mistakes is not in the power of man; but from their errors and mistakes the wise and good learn wisdom for the future.

Plutarch

"Live for something. Do good, and leave behind you a monument of virtue that the storms of time can never destroy. Write your name in kindness, love, and mercy on the hearts of the people you contact, and you will never be forgotten. Your name and good deeds will shine as the stars."

Robert Willian Chambers

"Nothing in the world can take a place of persistence. Talent will not: nothing is more common than unsuccessful men with talent. Genius will not: unrewarded genius is almost a proverb. Education will not: the world is full of educated derelicts. Persistence and determination alone are omnipotent. The slogan 'Press On,' has solved and always will solve the problems of the human race."

Calvin Coolidge

"I am not bound to win, but I am bound to be true; I am not bound to succeed, but I am bound to live by the light that I have. I must stand with anybody that stands right; stand with him while he is right, and part with him when he goes wrong."

Abraham Lincoln
